
Volume 25 Issue 3 - November 2019

Dogmatic - Newsletter of Hawke's Bay Dog Training Club Inc.

Greetings,

Well this is the final Dogmatic for 2019 and I'm not sure if there will be enough room to tell you all about the fabulous things that have happened recently and that are going to happen between now and the Christmas break-up.

Those of you who read the July edition and in particular the article on NZDAC (New Zealand Dog Agility Championships) may recall I said that it would be run by Zone 2 (that's the Zone our club comes in) well the venue is now finalised - "drum roll" - it is to be held in HASTINGS at the Regional Sports Park over Labour Weekend - beginning Friday 23rd to Monday 26th October. Robyn's report (page 4) provides a run down on the results of this year's event and heartfelt congratulations to our three representatives.

Whilst Lorraine has provided an excellent report (page 3) of our September Championship Obedience show which was a great success - and grateful thanks to the show and ribbon sponsors.

The agility ribbon trial, also held in September, was fun, even if the weather wasn't. A couple of new handlers with their dogs entered and did really, really well - congratulations to Claire and Mia.

What's coming up? Our Agility Championship event on 16 / 17 November, held at Farndon Park, Clive - if you've some free time please come along better still volunteer to lend a hand and get involved in club activities.

Speaking of which - the Christmas break up will be on Wednesday 4 December at club grounds from around 5.30 pm - a great time for fun and games with your friends - two-legged and four-legged and to have a bite to eat. The draw for our fabulous Christmas raffle will be made there - so don't forget to buy your raffle tickets to be in to win one of three great prizes and its only \$5 for a book of three tickets. Ask your instructor or see Wendy or Dee.

Finally, to members enjoy your training and have heaps of fun with your dog. Thanks to all of the Instructors who helped us all with our training in 2019 - you're a great bunch and much appreciated.

Cheers - Jackie

President's Report

Well this is sure another year flying by and wait for it, it's only two months until Christmas!

Great to see that it is getting light again giving us all more time to enjoy our four-legged friends.

Our Champion Obedience Show was held in September and was another well-run event with the highest number of entries, we have had in a while so a big thank you and well done to those who took the time out and helped us with all the setting up as well as donated food. This show is one of our major events of the year and it takes a lot of hard work behind the scenes to make these events run smoothly.

Also, a special thanks to our sponsors Hearty Paws, Ezeleash, Seeds and Grains as well as our valuable ribbon sponsors. As a club we really need to do our bit and support our sponsors.

Last week some of our members represented us at NZDAC with great results. Well done to Dee who represented the Zone and won the InterZone Novice Class. Our Club also won the InterClub Team Relay so well-done Cam, Chrissy and Dee.

On 16 and 17 November we are holding our yearly Championship Agility Show at Farndon Park in Clive. This has always been a popular event and I am sure you will want to see some of our amazing teams at work. We are so lucky to have this so close by, so pop on down and as this is run over both days you may just get the bug. We would love to see you there!

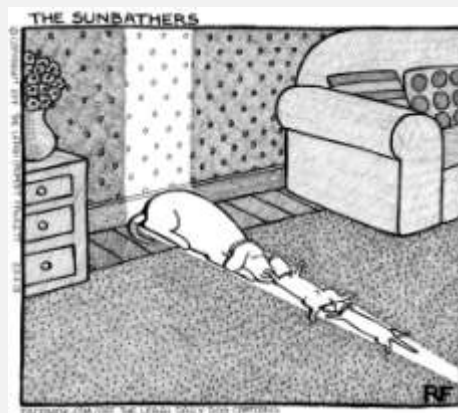

Hopefully by now you would have received some of our Christmas Raffle Books that we sell to raise funds for our club and help support our club members when they represent our club at National Shows like NZDAC and NDOA. They are only \$2.00 per ticket or a book of 3 for \$5.00. We have awesome Christmas prizes. If you are looking to help out please ask your Instructor.

Don't forget our Christmas break up on the Wednesday 4 December at club grounds. It will be a fun night with games and treats for the dogs as well as a buffet for the handlers.

This year we will have a prize for the best dressed dog so let your imagination run wild.

Till next time

Champion Obedience Show Report

What an amazing show we had again as the triple show is very good for us. Again we had very good helpers from the club and also a couple of people outside the club. The raffles were amazing and presented really well, and our kitchen was very successful again. Thank you to all that donated raffle goodies and food for the kitchen. Many thanks to the wonderful ladies who worked all day in it.

We had Hearty Paws as our sponsor this year which was very well received.

Other people who need recognition are all the companies and local people who donated our ribbons. This helps greatly with the finances. Also thanks to the members who helped set up the rings and jumped in when needed. We also had the mat man here this year and he has kindly donated some of his sacking mats for us to use at a later date.

On the Saturday night Dionne, Wendy and Lorraine held the Pot luck dinner, which is always well received, as it is a time for people camping to get together for a chat, as they are so busy through the day.

All of our members who competed did really well. Very proud to see them standing up in the line-ups, and to those who received the Beginner certificates. Well done.

This is our annual obedience show so it is important that we always support it, which you all have.

Thank you.

Lorraine Lennox

Huge thanks to our major show sponsors:

Agility Report

At this stage, we are still running one combined class at 6 pm on Tuesdays. We will continue to do this until the number of people attending class increases. Thanks Sharon for being a great instructor.

Thanks too to Sharon for organising another Dyson seminar for us in September. I hope everyone came away from the seminar with lots of ideas for improving their training.

Please remember to let me know if you won't be coming to class, as the number of people attending affects what training exercises we set up. I can be contacted on 027 223 3539 or rfargherk9s@gmail.com. I am unlikely to see any message sent after 4.45 pm as I have a dog in the foundation class as well.

Our club members have been successful at most shows that they have attended in the last few months. We only had three club members able to make the trip to NZDAC at Cromwell, but they did us proud. Dee and Ruby won their class in the InterZone Team event. Cam with Traitor and Treason, Chrissy with Lace and Betty, and Dee with Ruby and Lucy, achieved five 1sts, five 2nds, three 3rds and two 4ths. They also won the InterClub Team Relay with a great run. Well done everyone.

We had a successful ribbon trial in September, even if the weather wasn't as nice as we would have liked. Thanks to everyone for their help.

We have our big competition at Clive in November and I am sure this will go well. Our shows successes depend on our members all working to make it run smoothly.

Have a good Christmas and, we look forward to seeing you back in January.

Obedience Report

While writing this it is Halloween tonight and I have to say it's pretty scary to say that we are nearly at the end of this year.

With our current term well underway, it is so great to see such a diverse bunch of people with a large range of dogs wanting to learn. It is always rewarding as an instructor to see everyone making progress.

We held our triple Championship Obedience Show on the 28th and 29th of September this year.

This was another successful weekend due to our amazing club members who gave up their valuable time and giving a helping hand with all the organizing. Also, a big thank you to all the many members who donated the food that was used in our kitchen as well as the prizes for the raffle.

Our ladies who ran the kitchen sure did a wonderful job especially feeding our Judges.

Well done to our members who received a prize and it is always so much more rewarding when it comes from one of our own shows. I hope our newbies who gave it a go for the first time will be back for more.

It is always great to hear the feedback from other competitors who remark how well our shows run, and comments were given on how we have such great sponsors including Hearty Paws, Ezeleash, Seeds and Grains. We also had our Sponsors, sponsor our ribbons which always look so professional with their company names on them.

Once again, I really would like to thank our awesome team of Obedience Instructors Chrissy, Heather, Lorraine and Wendy for doing such an awesome job of teaching our classes.

See you all out having fun training.

Cheers

Dionne

Rally-O Report

RallyO is a sport where you are working for qualifying certificates rather than a first past the post system. It is about having fun with your dog, and it is a great way to build your bond with your dog.

Unfortunately, the NZARO Expo was in Upper Hutt this year which made it more difficult for our members to travel to it. The competition was at a great venue but we hope to be back at Feilding next year. There is an NZARO RallyO competition at Upper Hutt in December if you would like a last competition before Christmas. That show is on at the same time as an agility competition so you could compete in two codes in the same weekend.

We continue to have a large number of dogs competing in the monthly RallyO link competitions with some great results for the year.

We have the monthly competition on the first Monday of the month, and training on the third Monday of the month. Feel free to come along and have a look to see what is involved. Or email me at rfargherk9s@gmail.com if you wish to be added to our RallyO email list.

Robyn

Scent Work Report

Hi Guys

Our Scent work classes are slowly growing. We even have people coming from Waipukurau and one from Dannevirke every Thursday. In October two of our people entered a Trial run by KensonK9 in Sanson. Both of them passed their Novice tests. That was Tracy Peterson and Essam Girgis. Well done to them. We couldn't all go as it was the same weekend as our Obedience Champ show.

It is a great sport, gives the dogs something to do with their brain and can be done anywhere. Come along and give it a go

Canine Good Citizen (CGC) Report

The CGC classes have been very well attended through the darker part of the year, with the foundation class regularly having 10 or more dogs and handlers at class.

We have been very out and about over the year, the dogs are very familiar with the car parks around town and the Pak'n'Save surrounds. The nice staff at Animates are getting to know us too!

It is always very rewarding to see how the dogs improve through the year, they are getting more confident and enjoying the experience of being with the group.

Unfortunately there has been no assessment this year, we will try to organise one in the first half of next year.

I hope everyone has a safe and happy holiday season and am already looking forward to 2020.

Flygility Report

We continue to meet on the second and fourth Monday each month - however, it has been a case of weather permitting just recently!

Training is going well with our novice dogs who are really progressing to independent work which is rewarding for both the handlers and dogs.

Our NALA results have fluctuated this year, with some older dogs retiring, others with injuries (unrelated to flygility) and handlers moving out of the district. Nonetheless, we are still managing to get some scores on the board, the hardest thing is getting more than one team running (needs 3 dogs) we often have five dogs but not that elusive sixth! Because of this we are looking at, with the help of NALA, working with CHB to run the teams jointly. Otherwise we know that people will drift away from the sport if they can't compete regularly.

We really welcome new handlers and dogs - so if you're not sure what flygility is, or if you'd like to try it, toddle over to club on the 2nd or 4th Monday about 6.15 and have a nose.

Vet Report-Nicky Chadwick (Animal Care 2002 Ltd)

ATOPY (ALLERGIC INHALANT DERMATITIS) IN THE DOG

Now that spring has arrived we are starting to see more dogs with allergies, which are one of the most frustrating conditions that we treat as veterinarians. Skin allergies can be caused by many different substances or 'allergens' and include, flea bites, food, contact allergies (e.g. wandering jew), inhaled

substances or even normal skin surface bacteria or yeast. Atopic dermatitis (atopy) is an allergy to substances that are either inhaled into the lungs and then are absorbed into the body, or they are absorbed through the skin.

The 'allergen' is usually to normal harmless substances e.g. pollens (grass/trees/weeds) moulds, house dust mites. It is generally owing to a genetic predisposition in certain dogs, where repeated exposure of the allergen leads to an overreaction by the immune system to lead to the symptoms of skin allergy. Unfortunately the condition is generally life-long with no cure, but often can be managed with time and patience.

Symptoms

The first signs we generally see are licking, scratching or rubbing, with the skin often looking normal at this stage. Most dogs start developing signs around 1-3 years of age after initially being exposed for a season or two to the allergen. Dogs unfortunately don't have the will power we generally have, and often scratch/lick and bite until the skin starts to become traumatised. This leads to red,

bumpy, or thickened skin eventually leading to hair loss and an increase in pigmentation. The skin may also become malodorous with an increase in bacteria/yeast on the coat which may worsen the itching. Saliva from constant licking also leads to a rust brown discolouration of the hairs. Areas affected with atopic dermatitis are usually the paws, face, ears, underarms, groin and front legs. The signs are generally seasonal (often spring/summer), especially if the allergy is to pollens which can be worse in temperate environments with long allergy seasons and high pollen counts e.g. Hawke's Bay. Dogs may also have concurrent allergies to fleas and some foods increasing the severity of the signs.

Diagnosis

As you can imagine it would be pretty miserable feeling continually itchy and uncomfortable, so it's vital you seek veterinary intervention before the skin becomes too damaged from self trauma. Diagnosis of the condition may be aided by areas affected, age of onset, breed of dog (some very prone to atopy) or evidence of fleas. One important condition to rule out is mites, so your vet may take a skin scraping to check and also check for bacteria or yeast on the skin surface. Biopsies of the skin may be undertaken, which can rule out other diseases and point towards allergies, however it will not tell us what they are allergic to! Blood testing (looking for antibodies against allergens) or skin allergy testing, by injecting small amounts of the allergen into the skin and looking for reactions, is a great way to try to determine the offending substance. Lastly but not least, trial therapy to rule out other allergies may be elicited by monitoring response after removing possible allergens, eg flea control, changing to a low allergen diet, avoiding grass.

Treatment

Allergies can be very hard to treat and no one therapy is effective for them all. However, in many dogs symptoms can be controlled with a variety of therapies. Often with most dogs, we need to break the itch scratch cycle first before starting on any specific therapy. This may include antibiotics or anti-fungals

to treat secondary bugs on the skin, soothing shampoos containing aloe-vera or colloidal oatmeal, topical creams or sprays especially if the area is small (and inaccessible to the tongue!), or cortisone (steroids). Antihistamines are less effective in dogs compared with humans but can help prevent signs in some dogs. Essential fatty acids can also decrease skin inflammation by up to 20%, but the correct ones need to be given, either by a supplement or in a special diet. *Atopica* is treatment with minimum side effects compared with cortisone but is often cost prohibitive. *Apoquel* is also a new drug that will be soon available that blocks the action of the itch nerve – effectively stopping the scratching but without the associated side effects of cortisone use. In some cases several allergens can add together to cause an animal to itch, where each individual substance alone would not be enough to cause an itching sensation – all animals should therefore be flea treated as sometimes this alone is enough, even if not suspected to be the cause. Food trials may be started using a novel protein source the dog is not usually exposed to. There are many specialist diets available, but they must be given exclusively at for at least 6-8 weeks to see if effective. Although food allergies only make up 10% of all allergies, I still think this worth while as this can be an easy allergy to manage. Washing feet after walks, and avoiding cut grass/high grass paddocks may help with contact/atopic allergies, or sometimes changing bedding to rule out wool allergy may be effective. Desensitisation vaccines can be formulated on the basis of the skin or blood test containing the substance they are allergic to. By continually exposing the dog to the offending substance the immune system may learn to stop overreacting. This vaccination generally has to be given lifelong and is effective in improving clinical signs in 60-80% dogs.

Overall the take home message is remember allergies cannot be cured and there is no easy fix solution. Finding effective therapies and working out the allergic substance(s) can be difficult and time consuming – patience is required! However left untreated, allergic skin conditions, can be very

distressing for your beloved pet and leads to unnecessary suffering.

IMPORTANT NOTICES

HEALTH AND SAFETY

Racecourse Management has asked me to remind our members about how their health and safety requirements affect our Club.

The racecourse is a work place so there are potential hazards to be aware of namely tractors, vehicles and racehorses. Because of this the Management have asked that we observe the following rules

- **NO dogs or people** on the course or in the Grandstand before 11am - as this is the time when there are horses in training.
- **All dogs** on leads during working hours (11am to 5pm) because there are people and tractors working during these hours .

The Management has no problem with Club members exercising their dogs off lead after 5pm before class but asks for consideration if there are tractors working - no one wants dogs or people injured.

Always pick up after your dogs and don't forget to take it away with you we don't have a bin service!

We are lucky to have this area to exercise our dogs - please respect it.

AGILITY NOTICES

EQUIPMENT AND TRAINING

Just a reminder to everyone to make sure you assist with getting the agility equipment out and putting in away. Best way to ensure you do remember is to arrive for your class 15 minutes before it's due to start i.e. 5.15pm for 5.30pm for Foundation; and so on. And though we all want to get home - just check before you leave what needs to be put away or moved.

GEAR BOOK

So we can keep track of the gear, there is a Gear Book hanging up on the notice board, it must be completed by any Agility member who wishes to borrow equipment. **Maximum time - two weeks.** It must be dated, have the name of person borrowing the equipment, the equipment borrowed, signed by borrower and countersigned by a committee member or instructor. Note on occasion it may not be possible to borrow gear as it may be required by us or another club - please don't be offended if your request is refused.

If you are thinking about moving, let's work together to help both YOU and Hawke's Bay Dog Training Club achieve a great result.

For every property that is listed and sold with us, we will give \$500 back towards Hawke's Bay Dog Training Club for them to use to benefit your children.

Give me a call today, I would love to hear from you.
