## **Dogmatic - Newsletter of Hawke's Bay Dog Training Club Inc.**

---

### **Greetings,**

Here's a quick round up of the last four months: our new website came on stream in July - [www.hbdogtrainingclub.co.nz](http://www.hbdogtrainingclub.co.nz). In August - there were Team trials held in Taupo to select the Zone 2 reps at the New Zealand Dog Agility Champs (NZDAC). Pleased to say that Heather and Boo were selected as the Starter team. September saw our extremely successful Championship Obedience show take place - more inside and should have also seen our agility ribbon trial - but I think for the first time ever this was rained off. October - NZDAC held at Manfeild Arena, Feilding and National Dog show at Porirua. November - CGC assessment and all of a sudden it's mid-November and another Agility show is upon us on 17/18 November at Farndon Park Domain, Clive.

On that note, it would be really nice to see lots of club members and their families come down to the show. People often ask about doing agility with their dogs - but don't come to our own shows to get a feel of what agility is all about. Which is team work and hard work - but it is soooo satisfying when you and your partner have had a really good run - you may have dropped rails or been eliminated - but you got that blind/front/rear cross in just as you planned - that's oh so sweet. And yes we're always looking for helpers but even if you just want to come and have a look-see you'd be very welcome.

Statement: Dogmatic is costly to produce and after each print run there are numerous copies left in the club rooms. Question: What do members think if in future we only print a few copies (for people who don't have computer access) and everyone else either has it emailed to them or downloads it from the website? Comments please - my email address and phone number are just to the right.

**Don't forget** That the Christmas break-up, with fun, games, a bite to eat, awards and cups presented and, lots of people to have a good chat to is on Thursday 13 December from around 5.30 till about 7.30. See you there **Cheers - Jackie**

## President's Report

On the 17 and 18 of November as we are holding our yearly "Big" Agility show at Farndon Park in Clive. This has always been a popular event, good attendees, sponsors and a great variety of owners and dogs.

I strongly encourage you to make the effort and if you are not competing please still come and see what is going on with your local club on that day.

We are so lucky to have this so close by so all you new members who may be interested in seeing our club people and their dogs in action. It will be two full on days. I am sure the competitors will have a great rewarding day. Hopefully the weather will work for us this time.

Our obedience show in Sept/Oct was another well run event. So a BIG THANKS to those who took the time out and helped or donated food. This show is one of our major events of the year that takes a lot of behind the scenes work to make sure these days are a success.

Also a special thanks to our Sponsors (Black Hawk, Ezeleash as well as our ribbon sponsors. As a club we need to support our sponsors as much as we can, as without them we would not have our shows. We do appreciate all the businesses and Club members who sponsored these ribbons.

Last month Heather, one of our "Agility Champions" represented our club at NZDAC in Feilding and Lorraine did a great job in representing us at the National Dog Show with Rally-o in Porirua. Well done to you both.

I was invited to help and take part in Chrissy's assessment for Canine Good Citizen this was held on Saturday at our club grounds. My official title for the day was " Professional Car Door Banger " and also taking the role as the noisy person in a crowd.

Chrissy really had put a great effort into this and thanks to all her organizing skills this day went like clockwork. This was one of those days that seemed to be a rather long day due to the sheer number of applicants and the great success with the pass rate. Poor Jackie was last to perform, tired and hungry she pulled one out of the hat and wow what an achievement ! Jackie was the only one from our club who went for CGC Gold and YES! she successfully passed it.

Don't forget our Christmas break up which is being held on the 13th of December it will be a fun night with games and treats for the dogs. So come and have some fun with your dog.

## Agility Report

Life has been a bit busy since our last report. We have changed our agility training and link night from Monday to Tuesday. This allows competition dogs and handlers to be more rested after a weekend of competition. *Would people please make sure that you let your instructor know if you won't be there. The number of people in a class can have a major effect on what equipment will be set up.*

The planning and organisation for our September ribbon trial was complete, and then the weather decided to interfere. With heavy rain in the week leading up to the ribbon trial, we reluctantly decided to cancel it. The rain had eased by the weekend, but the grounds were still sodden and wouldn't have been safe to run on.

We had several club members competing at NZDAC – our national agility competition – and we achieved some pleasing results. Kristina achieved some great results with her young dogs. Five dogs achieved qualifying certificates in gamblers and Colleen, Heather, Dee, Jane and Robyn also gained ribbons in a variety of classes. A great result at the top show in the country.

We are now making final preparations for our November show on 17 and 18 November at Clive. This is a big show and we hope that club members will be helping. All club members are invited to come and see what is so addictive about this sport.

A reminder too to keep an eye on the Agility Website – [www.dogagility.org.nz](http://www.dogagility.org.nz) – look under 'AC' and 'consultation' (among other things). This will keep you updated on things happening in the agility world. Agility members – please make sure that you vote for the new agility committee. I emailed the details out to most agility members. Please ask me if you need more information. I hope you will consider voting for me for this committee.

That's all for now – see you all at training.

Cheers

**Robyn**

## Obedience Report

Another term well under way so great to see such a diverse bunch of people eager to learn and train their new addition to their family. You will enjoy your dog so much more when you both understand each other and it always rewarding to see the progress of everyone.

Many new handlers don't realise that repetition is the key word in most behaviour. Sometimes it takes longer with some dogs than others so never compare. They can get it today but by tomorrow they have forgotten so we just start again. It can be very frustrating but be calm and consistent and remember your dog is doing this for you because you are asking it to. Please never train when you are tired, angry or upset over something. Your dog will sense something is not right and won't respond to you as well and then it is very easy to blame your dog but it won't be it's fault.

We held our triple obedience Championship show on the 30th September and 1st October. This was another success. This ran really smoothly but of course this only happens because of our awesome members. A big thanks to Lorraine's husband Barry helping out with the lawn clippings, and Maria for setting up the rings. This can take all day to do but I must say, last event we had the best straight lines ever. We really appreciated the work Jackie did as she also gave up her time to help even though she was not running any of her dogs.

Thanks also to the many members who came to help set up and run the day. We really do appreciate the food that was kindly donated for the kitchen, as well as the prizes for the raffle. Every little bit helps and all this adds up to a successful day. Our ladies who ran the kitchen did a wonderful job of keeping everyone fed including the judges.

Well done to Chrissy, Heather, Julie and Maria all from our club, it must be very satisfying to know that all the hard work you put in comes back with a deserving ribbon.

I was really proud to find myself writing out my first Obedience Challenge Certificate to Lorraine and Jantsee. This particular Certificate is very hard to achieve and it was nice to see the person who helped me to HBDC when I first started, receiving this well earned award.

Once again I really would like to thank Chrissy, Heather, Jackie and Maria for doing such an awesome job teaching their classes. What an amazing team we have.

## HB Championship Obedience Test - report by Lorraine Lennox

On September 29th and 30th we held our Championship Obedience show which was another great success!

Firstly, I would like to thank all the members who donated something for the Raffle and the kitchen. The Raffle was amazing, giving people 2 draws each day, plus we had a 20kg bag of Black Hawk dog food to raffle. Black Hawk were our sponsors this year donating first prize. The kitchen went really well, thanks to our donated food and great kitchen ladies.

My other thanks go to Ezeleash, who are an ongoing donor of their products to our show and to all our new members. Also, to all the businesses who donated a set of ribbons. Thank you to all our members, who helped in some way, either setting up the rings (Maria), or being there as extra helpers on Friday and by competitor calling or other ringside jobs on Saturday and Sunday.

I don't normally like to single out one person to thank, but there is one in our club who really goes the extra mile and that is Dionne. Not only did she do the catalogue and then the results, but she also organised all 15 ribbon sponsors, took the line-up photos, made up the raffles, and donated lots of extra goodies towards our place getters. Thank you Dionne..

We had great judges and stewards, which always makes the show successful. Also the weather was kind to us. The grounds were excellent due to extra mowing.

Entries were slow coming in to start with, which gave us a bit of a headache, but as usual right at the end it all came right. It was great that all of our members who competed did very well.

We had another successful Pot Luck evening at the Clubrooms on the Saturday night, which

many of the campers came to and were able to relax after a very full on day.

It is so nice to walk around and hear people say that this is one of the best shows they go to.

We now look forward to next year.

\*\*\*\*\*

Hawke's Bay Dog Training Club would like to say a special thank you to all of these companies who kindly donated to our show.

Without these wonderful businesses our show would not be a success:

*ANIMAL CARE 2002 LTD*

*ANNETTE HILDESHEIM*

*SEEDS AND CEREALS*

*THE HYDROTHERAPY CLINIC*

*VET SERVICES HAWKES BAY*

---

## RallyO Report

We have changed nights and RallyO now runs on the first and third Monday of the month. We normally run RallyO link on the first Monday of the month, although we pushed this back to the third Monday for November because of Guy Fawkes fireworks. It's also great to see some younger dogs starting RallyO.

We had some club members attend the NZARO Expo in Feilding in August, and they did well. There is another NZARO RallyO competition at Upper Hutt on 8 December. This is the Upper Hutt Dog Training Club's new grounds, and they are a lovely place to compete at. Information available at: <https://nzaro.webs.com/upper-hutt-december-2018>

Feel free to come and have a look at RallyO. It is a sport where you are working for qualifying certificates rather than a first past the post system.

**Robyn**

## Scent Work Report

Hello. Our Scent Work classes are still going great. We do try and get around to different places to train. On Labour weekend, Sunday the 21st, myself, Dionne and Sandra went to Wellington again for a Central Search Dog - Scentwork trial. It was a great day out also meeting other people with the same interest.

Myself and Dionne passed our second Novice test which means we can now move up to the next level (different scent) Sandra passed her first Novice test. Just one more to go.

We are also looking at holding our first trial here in the Bay early next year.

If anybody is interested, come along on a Thursday night but make sure to ring Maria on 870 3742 or 021 062 8316 first, as sometimes we go out to other places to train.

**Maria**

## RallyO Event 8 December 2018

## Canine Good Citizen (CGC) Report

It has been a busy year for the CGC classes! We have great cross section of members in both the foundation and bronze/silver classes, very dedicated people who turned up all through the winter months and who are now enjoying the sunshine with their dogs.

We ran a very successful Assessment day on November 3rd in conjunction with Napier Dog Training Club, with an amazing 27 assessments done on the day. Our assessors, John Jamieson and Bev Binney worked hard and did a great job.

Special thanks to all the volunteers who gave up their time to be strangers and crowds, we couldn't do these days without you!

Have a look at the Awards page for the names of the teams who passed and at which level(s). There are also photographs on our Facebook page.

Huge congratulations to the people who passed, all your hard work is paying off.

## Flygility Report

The weather did manage to do its worst over the final months of Winter but it didn't stop us running the NALA link flygility continuing to have some good outcomes.

There's also seems to be a good bit of friendly rivalry between the handlers with dogs finishing with as little as .073 of a second between them. Whilst the dogs run individually against the clock in NALA it still manages to get quite exciting though not so much as when you see two well matched dogs in full flight.

We've been asked again by Hawke's Bay Racing to take the fly dogs along to the Christmas races (12 December). The punters really enjoy the dogs racing - though its not really too serious from the handlers point of view - the dogs seem to have a whale of a time.

We're also planning another tournament at Easter 2019 - see side panel.

Flygility has now moved to 6 pm on the 2nd and 4th Monday of the month for Link and training respectively. Come along for a look see - you never know you might wish to give it a try!

## Vet Report-Nicky Chadwick (Animal Care 2002 Ltd)

### Parvo virus – what is it and why should we vaccinate?

Parvo virus is a common disease that most vets in the world have unfortunately had to treat. Just the mention of the

word fills me with horror, as it's such an awful disease with a very high mortality rate and is sadly such a preventable disease. Earlier this year Hawkes Bay had a parvo virus outbreak where numerous cases were treated in this area, with many dogs losing their lives unnecessarily.

#### **What is it and how is it spread?**

Parvo virus is highly contagious preventable virus that most commonly affects dogs between the ages of 6 weeks and 6 months, although it can affect unvaccinated dogs at any age. Dogs are most susceptible after the stresses of weaning, an immature immune system and when maternal antibodies from feeding off colostrum from their mother have waned. The virus is extremely hardy and can survive in high and low temperatures, is resistant to drying and is difficult to kill. It can survive in the soil for up to a year and in the

right conditions in organic material, can survive several years! Your dog may be exposed to parvo virus by direct contact with an affected dog, via infected faeces in the environment from an infected dog, or indirect contact with infected material being carried on shoes/clothing/cars etc. Only a small amount of virus is required to cause disease in susceptible dogs. Once the dog has been exposed to parvo virus it takes around 3-10 days for symptoms to start. The dog will then start shedding virus 4-5 days after exposure. The virus first starts to attack the glands in the throat and then spreads to the rest of the body targeting rapidly dividing cells in the body, such as white blood cell which are responsible for fighting disease. It also damages the cells lining the intestinal tract so that blood and protein and fluid leak into the intestines causing severe dehydration and bacteria from the gut can get into the blood stream which can cause a serious infection known as septicaemia.

#### **What are the symptoms of parvo-virus?**

- I) Anorexia (off food)
- II) Lethargic (sleepiness)
- III) Vomiting
- IV) Diarrhoea – often bloody and foul smelling
- V) Fever or a low body temperature

#### **How do we diagnose parvovirus?**

Parvo virus is/can be strongly suspected when an unvaccinated puppy or adult dog presents with the above clinical signs. Diagnosis however can be confirmed by using a test that can detect parvo virus particles within a faecal sample.

## How do we treat parvo virus?

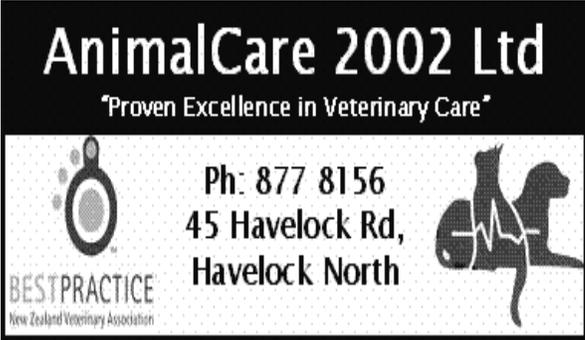

Left untreated parvo virus has a mortality rate of up to 90% within 2-3 days of exposure! Intensive treatment can improve this from 5-20% mortality. Parvo is a virus so there is no specific treatment. The main aim of treatment is to support the dog until their own immune system can kill the virus. Treatment involves intensive fluid replacement by an intravenous drip to replace all the fluid and electrolytes lost in the diarrhoea and vomit, medications to control vomiting and diarrhoea, antibiotics to treat secondary infections, nutritional support and intensive nursing. Patients need to be treated in strict isolation and nursing staff need to be thoroughly disinfected prior to leaving the dog to prevent spread to other patients. As treatment is so labour intensive and involves intensive care, veterinary costs can quickly escalate. Some owners try to treat their dogs at home in view of expense, but it's often hard to provide adequate care and many dogs will still die of dehydration and overwhelming infections. If the dog recovers, they can still spread parvo virus in their faeces for up to 3 weeks into the environment. In addition, your property may remain a source of parvo virus infection to any future unvaccinated dogs/puppies for many future years!

## How do we prevent Parvo virus?

Most puppies are protected by antibodies obtained from their mothers' colostrum (if vaccinated) for the first few weeks of life. However, this protection starts to wane from 8-12 weeks of age

and combined with an immature immune system, makes them very vulnerable to parvo virus infection during this period. Vaccination of puppies should therefore start at 6-8 weeks of age. Parvo vaccination is a very safe effective means to prevent infection and vaccine reactions are very rare. Some puppies however, may have very high level of maternal antibodies up to 12 weeks of age and beyond, which may prevent them responding adequately to the vaccination. The World Small Animal Vaccination Guideline Group therefore recommends vaccinating puppies every 2-4 weeks until 16 weeks of age. It is then recommended that dogs have an annual vaccination to also catch those dogs that haven't responded adequately to the primary vaccination course. From this point, most dogs will have adequate protection against parvo virus for at least 2-3 years. Rottweilers and Dobermans are believed to be poor responders to vaccination making them more susceptible to parvo virus – however this is currently unproven.

Recently, one of our members, Rosemary Wood, moved to Hamilton - before leaving she hosted an afternoon tea. Below is a short note from Rosemary to all who contributed toward a gift for her and were able to attend that tea.

Dear Friends,

I'm writing to say how much I enjoyed the farewell afternoon tea attended by so many of you before I left for Hamilton. The totally unexpected gift token was very much appreciated and I have already spent it! I have bought a peach tree and a lovely Wedding Cake dogwood. Every time I look at them it will remind me of the people who gave them. Thank you.

Toffee and I are enjoying Hamilton. She loves being the only dog. With the mountain bike park over my back fence we have lots of off lead walks and it's only 10 minutes away from the river path.

I've been busy organising; new curtains, roof repairs, finding an exercise class, joining Huntly dog club and community groups and digging up the lawn to make a garden. There was no garden here, which is another reason why your prezzy card was so welcome.

I'm good for overnight accommodation for anyone wanting to stay for competition - first up, best dressed.

Best wishes and warm regards,  
Rosemary.

# IMPORTANT NOTICES

## HEALTH AND SAFETY

Racecourse Management has asked me to remind our members about how their health and safety requirements affect our Club.

The racecourse is a work place so there are potential hazards to be aware of namely tractors, vehicles and racehorses. Because of this the Management have asked that we observe the following rules

- **NO dogs or people** on the course before 11am - as this is the time when there are horses in training.
- **All dogs** on leads during working hours (11am to 5pm) because there are people and tractors working during these hours .

The Management has no problem with Club members exercising their dogs off lead after 5pm before class but asks for consideration if there are tractors working - no one wants dogs or people injured.

**Always pick up after your dogs and don't forget to take it away with you we don't have a bin service!**

We are lucky to have this area to exercise our dogs - please respect it.

## AGILITY NOTICES

### EQUIPMENT AND TRAINING

Just a reminder to everyone to make sure you assist with getting the agility equipment out and putting in away. Best way to ensure you do remember is to arrive for your class 15 minutes before it's due to start i.e. 5.15pm for 5.30pm for Foundation; and so on. And though we all want to get home - just check before you leave what needs to be put away or moved.

### GEAR BOOK

This will be hanging up on the notice board for any member that wishes to borrow equipment. It is to have a date, name of person borrowing the equipment, equipment borrowed, signed by borrower and countersigned by a committee member or instructor. This is so we can keep track of the gear.

**If you have any queries regarding membership please contact one of the Members' Officers - either Maria Noanoa, phone 870 3742 or 021 862 8316 or Dionne Robinson, phone 870 6122 or 027 450 4504**
